

## About me

I'm a FE dev passionate about building clean sites. I'm always eager to learn new technologies and stay up to date with the industry trends. Outside of coding, I love being outdoors — running, ski touring, or climbing. I also do enjoy renovating old motorcycles. I like adventures and in Sept. 2025, I cycled 3,100km solo from the northern Norway back home. Throughout my life, I've been part of a tourist club, where I now lead kids. I like helping others and I do truly value helping and learning from people.
